Case 1:23-cv Page 12 of 14 Mark Phillips You Thanks for all you do. I feel so much better about this project now thanks to... You give the air cover so its totally cool, and I can't help it. This is why I stay at the engineering level or hid in a law firm, I can't help look at acquisitions and joint ventures, and strategic sh*t, its fun with lots of money and resources and vision. But I like just executing on Ryan and your behalf, its gets too personal when I care (can you imagine me caring more about a project?). I appreciate all that you do too, from trust, to not punching me for returning your without filling the gas - I honestly forgot, I can't keep anything in my head anymore except work stuff and even that is hard when I am so tired. gn 10.03 PM Mar 14, 2022 So you made a new server? I thought we'd keep with the movement DAO? 11/29 AM
